TO WHOM IT MAY CONCERN

We are pleased to introduce to you Mr. Jock Isacowitz who is on a short visit to Israel. Mr. Isacowitz is the National President of the Springbok Legion, the ex servicemen organisation in South Africa, which is today playing one of the most prominent roles in the general political life on the South African scene.

Mr. Isacowitz came here from Europe where he has been attending a world conference of ex servicemen as representative of South Africa.

In addition, he has represented the South African Jewish Board of Deputies at meetings that are taking place among world Jewish organisations which are watching the proceedings at U.N.O. He has had the opportunity to attend the debates on the Palestine question at the U.N.O. Security Council and Political Committee. Further, on behalf of the South African Jewish appeal, he has taken part in discussions with the American Joint Distribution Committee in Paris and has just completed a tour of D.P. Camps in Germany and Austria.

The South African Zionist Federation is most interested in ensuring that Mr. Isacowitz shall be given every facility to see all aspects of present day life in Israel. On his return to South Africa very shortly he will be actively engaged in the work presently being conducted by us for the State of Israel.
